

-NOTICE- READ BEFORE USING

If the Electric Duet Player module is incorporated into any program intended for sale or commercial use of any kind, the following message must be prominently displayed on the product's packaging.

The two voice music in this product
was created using the Electric Duet
Music Synthesizer by Paul Lutus.

Due to the diskette protection used on The Electric Duet, the screen will fill with inverse 'R's after saving a player module on your diskette (see page 14). This is normal and occurs only after the player has been correctly saved. Simply reboot your Electric Duet diskette to re-enter the program.

** CORRECTIONS **

An enhancement was made to the Electric Duet to improve its sound quality and to simplify music entry. This was made possible by using a single duration value for both notes. Please insert the following changes into your Electric Duet manual.

Page 4 - In the last example, both durations should be "4.".

The last paragraph should state that durations for both notes are the same.

Page 8 - The first paragraph should read:

When you are changing durations, you need only enter one of the durations for both to be changed. This is because both notes use the same duration value.

Page 7 - In the last paragraph, the first references to CONTRoL-[R] and CONTRoL-[F] are reversed. CONTRoL-[R] will lengthen note durations, while CONTRoL-[F] will shorten them.
